**State Urges Speedup**  
(Continued from Page 1.)

Immediately advertise for construction bids and work could begin upon the award of a contract. Engineering plans for the \$270,000 project have long been completed and approved, officials said.

The program was first included in the state's 1960 highway plans but was postponed until this year because work on major interstate highways was given priority.

Widening of Nameoki road south of Madison avenue to Edwardsville road is in the planning stages but is not included in this year's plans. Necessary groundwork for appraisal of property in that area has been previously completed, Gasparovic said, and the process should not be as time consuming.

In connection with the Nameoki road project, the city has been assigned by the state the work of widening West Pontion road from Nameoki west to the county's four-lane pavement. The project is to be financed with city motor fuel tax funds and has been estimated to cost \$75,000.

The state currently is conducting preliminary appraisals from Niedringhaus avenue to the north for securing a right-of-way for proposed Riverfront Federal Aid Route 151 which will skirt the western limits of Granite City and extend through the city to the south. The project is to be financed with state highway funds, said "it should not be long before the right-of-way can be obtained."

## Hodge Says IRS \$2,700,000 Tax Claim 'Too High'

Orville E. Hodge, former state auditor who now is a clerk at the Ballentine Hardware store, told the Press-Record Saturday the charge by the Internal Revenue Service that he owes \$2,700,000 in back taxes and penalties two-thirds too high.

Hodge, who said he has not been notified of a hearing date, added that the matter is in the hands of his attorney, William Fulton of Springfield.

"They (the IRS) put everything in there. There's penalty on penalty, but the amount is far too high," Hodge added.

Mrs. Hodge Files Petition  
The \$2,700,000 claim by the IRS came to light over the weekend when Hodge's wife, Margaret, who lives at 1714 Lauderdale, Fla., filed a petition with IRS in Washington saying she was not liable for taxes due under joint returns filed by Hodge for 1953, 1954 and 1955. She said she did not aid in the preparation of the forms.

The petition was filed in the U. S. Tax Court. Hodge was imprisoned in 1956 for theft of \$600,000 to \$1,500,000 from the state and was released from Menard State Prison in January, 1957. IRS contends that Mrs. Hodge is liable for the taxes due on the joint returns. They say Hodge's income in 1953 was reported at \$19,187 and should have been \$32,079; that in 1954, his reported income of \$23,514 should have been \$885,588, and that in 1955 his reported income of \$72,449 should have been \$1,189,360, 189,360.

## Emergency Room At Hospital Often Misused

The emergency room at St. Elizabeth Hospital is a very busy place, statistics show. This was emphasized Labor Day when 71 patients were treated during a 24-hour period. In 1962 alone, a total of 12,249 persons passed through the emergency room.

Hospital officials, however, stress that many of those people need not. Hospital statistics show that many of the emergency room had only consulted their personal physician first. Frequently, they had minor cases such as headaches, sore throats, colds and runny noses only serve to burden the emergency room and interfere with the proper function—caring for those in need of immediate service because of the urgent nature of illness or injury.

Four Suggestions  
Hospital officials emphasized the following points to Quad-Cityans in regard to the St. Elizabeth emergency room:

- (1) Since a person's own physician is summoned whenever possible, it is best to call a doctor before going to the hospital.
- (2) The emergency room is not just an out-patient clinic and persons are asked to avoid "just wandering in" with minor cases without first consulting their physician.
- (3) The hospital, as a non-profit organization, must make a minimum charge for each emergency room visit. Special treatment and other services are extra and charges do not include the physician's fee.
- (4) Since insurance policies vary widely on covering emergency room visits, it is wise to notify the insurance company immediately upon an emergency incident.

## Bullet Fired By Policeman Grazes Foot Of Suspect

A shot was fired by a Venice policeman in subduing a man at a home at 427 Weaver street at 11:45 p.m. Friday.

The bullet grazed the side of the right foot of Bobbie G. Reed, 30, of 1313 Russell street, East St. Louis, who was given first aid at St. Elizabeth Hospital and then was returned to custody.

Patrolman George Rhodes had been dispatched to the home of Lottie May Thomas due to a disturbance. She said she did not want Reed arrested, and the policeman left. As he was continuing his patrol in the neighborhood a short time later, he noticed Reed again was striking the woman.

Deciding to arrest Reed, the officer entered and was taking the man out the door when Reed began to fight him. Rhodes drew his pistol and fired one shot.

Reed was held in jail overnight in charges of fighting, peace disturbance and resisting arrest. He is a Swift Packing Co. employee.

## Evans-Wallace Nuptials At Tri-City Park Church

The Tri-City Park Tabernacle was the scene of the wedding Saturday evening of Miss Melba June Wallace, daughter of Mr. and Mrs. Lowell Wallace, 515 East Chain of Rocks road, and Evan D. Evans, son of Mrs. Edna Rainey of Greenville, Ill., and the late Rev. Melvin Evans.

Rev. Lloyd Couch of St. Louis performed the 7 o'clock double-ring ceremony, assisted by Rev. R. D. Shaw, before an altar of white gladioli and pom poms. The ushers, Allan Johnson and Harold Tankley, lighted the candles preceding the ceremony.

Mrs. Lloyd Couch, soloist, sang "Whither Thou Goest," and Miss Karen Shelton sang "The Wedding Prayer," both accompanied at the organ by Miss Reddy Mathenia. Miss Becky Shaw was in charge of the guest book.

The bride, escorted down the white-carpeted aisle by her father, chose a floor-length gown of Chantilly lace and nylon organza. It had a fitted bodice, scalloped scoop neckline, long tapered sleeves and lace bows trimming the front and back of the skirt. The skirt was made of nylon and had over taffeta, with wide scalloped insertions of lace through the skirt and extending in points both front and back.

A tarsi of lace leaves embedded with seed pearls, sequins and rhinestones, held in place the bride's fingertip veil, and she carried white carnation test-drop cascade bouquet centered with a white orchid.

Miss Janice Wiget of Belleville, a classmate of the bride, was maid of honor and Miss Barbara Wallace, cousin of the bride, was bridesmaid. They wore identical floor-length gowns of nylon and lace over taffeta, with all-lace bodice, short sleeves and square necklines, trimmed with pleated nylon.

## Madison Tapers Off This Week; Club Healthy After Friday Evening Scrimmage

Madison high school's football forces knocked heads in a three-quarter session Friday night, but Coach Glen Pickering will have the Trojans go through less vigorous work this week, since only five days remain until the season opener in Madison Friday night against Edwardsville.

"We're too thin to risk injuries," Pickering pointed out. "And our kids are in pretty good shape now."

The Trojan coach viewed with mixed emotions the outcome of the night scrimmage, which went to the "green team" by a 14-7 margin over the "whites."

**Work On Pass Defense**

"Our pass defense needs work, the kids ran the offense pretty well, considering that we're so small this year," he said.

Punting, kickoffs and punt returns, minor but important phases of the game, will concern the Big Green this week in after-school sessions.

"Well work to improve our offensive timing and also our defense against Edwardsville," Pickering said. "We'll have a tough customer to stop in Hoo-kins. Bob Hoskins is the Tigers' 230-pound jack-of-all-trades; he'll probably be seen at both fullback and end in Madison Friday night."

The defensive standout of Friday night's scrimmage was tackle John Olesky, who played across the line from Madison's No. 1 back-field lineup and broke

through repeatedly to snare ballcarriers and potential passers.

The only player who missed Friday's session was guard Jack Miller, who is nursing a pulled back muscle. "Jack was dressed and wanted to play, but we held him out," Pickering said. "He'll be ready by Friday."

The "green" team scored first in the scrimmage session when Bob Clinton blocked a punt and end Alton Rendell recovered the ball and ran it over for a touchdown.

The "whites" came back with a score by sophomore fullback Paul Lusk, who smashed in from the six after putting his club in scoring position with a long-gainer slant run.

The scrimmage-ending "sudden death" score by the "greens" was halfback Nick Podoba's off-tackle smash from the 12 after his team had driven for 40 yards behind the quarterbacking of Gary Skinner.

League champion Polish Hall second-place finisher Sportsman's Club, third-place Bowland and Venice-Madison American Legion Dugout advanced to the second round of post-season Tavern Slow Pitch Softball league playoffs yesterday.

Bowland, which will play Polish Hall in the semifinal round last night in the semifinals, edged Liberty Home 12-10 yesterday, with Jim Goodrich the winner and Al Tinko the loser.

The loser's Glen Sprankie hit a home run, while teammates Norm Meyers and Jim Wessner each collected three hits off Goodrich. Don O'Sha had three safeties for Sportsman's.

## 'Claude' Preparing For Grid Season

"Claude," the Press-Record's mythical electronic computer, was wheeled out of the storage closet today in preparation for his third season at predicting the outcome of high school football games in this area.

Correct in his advance predictions 79% of the time last fall, the gridiron brain is already at work digesting tapes containing information and 1962 statistics on the 28 teams which will be involved in this weekend's football opener.

His piskin prognostications will be published Thursday.

post-season playoffs begin next Sunday. Collinsville's Fletcher Field or Edwardsville's LeClair Field are likely sites for the game, if it is played at night.

The Hearts' battle for survival failed to overshadow a late Mercer surge which found the GC club in second place in the Blue division's final standings today.

The Mercermen won two close ones in the Blue division, winning Moose Club 12-10 at Wilson Park in the only Saturday I-C game, and coming back yesterday to edge Maryville here 7-6. Second-place (until yesterday) Pocahontas faltered twice, losing 4-3 to Carpenter Sunday morning and 14-3 to Blue champion St. Clair Heating in the afternoon.

The double setback dropped the Braves to 14-8 for the season. Mercer's twin win pushed the GC club into second with a 15-6 record. This made unnecessary a make-up game between Mercer and Moose Lodge, and gave Mercer the important home field advantage in the sudden-death playoff game next Sunday with Pocahontas.

The Hearts' Rains was never in trouble against Collinsville here yesterday morning. He kept five hits well scattered, while a second-inning triple by Sam Gerber and a stolen home run by Frank Hildeg gave the GC club all it needed for a victory. The winners added two more in the eighth against loser Mike Smiley on a walk, singles by Bob Price and Dan Reilly and Bob Burns' sacrifice fly.

Buente took a slim, 1-0 lead and hopes for a no-hitter into the ninth at Carpenter Sunday afternoon, but it was not to be. Fincheiter Bob Herman walked and swiped second, from where he scored the tying run on Vernon Thomas' single. Jim Tindall doubled Thomas to third, and Thomas scored the deciding when Jim Knopp followed with a single through the box.

Winner Bob Blackledge held the Hearts to just three hits in the sixth to break a scoreless tie when Hildeg singled, stole second and third and scored on Clarence Jones' sacrifice fly.

Back-to-back triples by Rich Branding and Don Dillard and Dick Portelli's sacrifice in the eighth inning drove home what stood up as the deciding runs for Mercer Saturday against Moose Lodge.

Jack Parker homered for Mercer in the third, while Larry Bogosian won the X/S class in a 1931 Ford.

## MERCER NAILS

(Continued from Page 6, Col. 8)

McCaskey hit a two-run four-bagger for the Moose in the sixth to give the East St. Louisans a 10-7 lead.

A walk, singles by Vic Buchner and Don Crabtree, who had four safeties in the game, and Terry French's two-run triple secured the tying runs in the eighth. Terry Kofahl pitched eight-hit ball to gain the victory. Mercer had 18 hits off loser Doug Edwards and two successors.

### Three-Run Homer

Charles Johannigmeier's three-run homer in the third was the big blow for Mercer in Sunday afternoon's one-run victory over Maryville.

The Mercereans added single markers through the next four innings off loser Bill Johnson, and then held on as the Red Sox rallied with four in the sixth and crept to within one with a single marker in the ninth.

## Venice Council Budgets \$292,925 For Toll Bridge

An operating budget of \$292,925 for McKinley Bridge in the 1963-64 fiscal year was approved Friday night by the Venice city council.

This is slightly less than the \$295,367 budgeted last year. Plans and Specifications for additional mercury vapor lights on the bridge were approved and bids were called for. Bids will be accepted until 10 a.m. Sept. 25, when they will be opened.

## Nameoki Twp. Roads Show Vast Improvement Since 1959

Management and cutting financial corners have given Nameoki township probably its best roads and road working equipment in the township's history, according to Highway Commissioner Charles Hanks and Township Supervisor Harry A. Briggs.

In 1959, shortly after Briggs and Hanks assumed office, the township embarked upon an intensive road improvement program.

At that time, what little road maintenance equipment the township had was in disrepair and was housed in an old barn on Johnson road that was not even in the township. The township then possessed a 30-year-old road grader, two dump-trucks, one pick-up truck and a small Ford tractor with a hi-lift.

Present Equipment

Now, four years later, the township can boast a new Caterpillar motor patrol road grader, a 1963 model International dump truck with a 10-foot snow plow, a 1959 International dump truck also with a 10-foot snow plow; a 1955 two-ton Dodge dump truck which is now being rebuilt; a 1963 IH Scout, used by Commissioner Hanks for supervisory work; a 1955 Ford panel truck; a 1956 Ford pick-up truck, equipped with a mosquito spray; a Case tractor with a hi-lift; a 1955 Ford tractor with a rotor spreader, which attaches to the rear of trucks; and a V-stow plow, which attaches to the road grader.

All of this equipment is housed in a new concrete-block garage adjoining the township office on Highway 162, just east of the

highway's junction with Highway 111.

Construction was completed on the garage in January 1961 by the Henry Ross Construction Co., and the township is occupying the garage on a lease-purchase basis, with each year's rental fee going toward final purchase. Supervisor Briggs said the township should own the garage by 1971 in keeping with the present rate of lease-purchase payments.

With the exception of the new dump truck and motor patrol road grader, all of the road equipment is paid for. About \$11,000 is still owed on the \$18,000 grader. No payments are due on the \$5500 truck until this fall.

**3 Full-Time Workers**

Three full-time workers have since been employed by the township for road maintenance since 1959. They are Roy Faulkner, Tony Becker and Roswell Bennett Jr.

In addition to these men, the township has from two to 12 highway workers who help in maintaining the township's roads to work off relief payments received from the state and the township. The number of relief workers usually tapers off toward the end of the month, according to Hanks.

The relief payments are worked off on the basis of \$1.50 for each hour's work.

Commissioner Hanks works on a part-time basis for the township and is employed full-time at the Nickle Plate railroad. Hanks said he usually goes out with the road crews when they begin work at 7 a.m. and supervises the work until they finish

## Ex-Patient Praises Staff At Hospital

A letter praising the staff of St. Elizabeth Hospital was received by G. W. Hoelscher, chairman of the hospital's citizen advisory board.

The letter was from a city employee, Assistant City Inspector William M. Jenkins, 2138 State street, who recently was a patient there.

Jenkins said he was in the hospital seven days and informed Hoelscher he wanted to commend the nursing staff and aids for "the excellent service and care that was administered to me and especially for their kindness."

"The meals were served graciously—on time and hot."

"The speed and efficiency with which I was cared for in the emergency room is to be especially commended."

"I would like to extend my deepest gratitude to the nurses and the staff of St. Elizabeth's for all they did to make my stay in the hospital comfortable."

### County Nursing Home Administrator Resigns

Mrs. June N. Boyer, RN, of the director and the employer, namely the nursing home committee.

She complained further that she was merely a figure head without any authority to properly conduct her duties as administrator.

The committee meets at the home each week, she said, charging that purchases of foods have been made by Werner without calls for competitive bids. She said she was permitted to purchase drugs for which there was an immediate need.

There were no complaints about the physical condition of the nursing home plant, but she said the committee had assumed virtually all of the administrative functions, leaving her only with token authority.

Werner said he would not comment today but would make a report to the Madison county board of supervisors which meets tomorrow morning at Edwardsville.

## GCAARC Helps Mentally Retarded Children

The Granite City Association for Aid to Retarded Children is an organization whose function is to improve the general welfare of mentally handicapped children for whom normal teaching methods and equipment are ineffective.

The local United Fund agency supports training according to ability for re-education through assistance to special classes in city schools, day camps, Saturday programs and other special events. Its special concern is children who otherwise would have no chance to enjoy life and many other things that normal youngsters take for granted.

Facilities for a legal capacity of 60 educable mentally-handicapped children who learn basic skills of reading, writing and arithmetic are provided by the Granite City State Normal University, Normal.

The four-year scholarship has been established to assist in educating qualified Granite City high school graduates with the stipulation that the trainee must

Special Programs In addition to classroom training, a Saturday activity program, under counselor William R. Mott, provided 11 youngsters with handicraft and games, and a Saturday spiritual program was provided on an inter-denominational basis. Enrolled in the latter program were about 12 children under the direction of the Rev. Alfred Bulk of Hope Lutheran Church.

A summer camp program sponsored by the agency provides two weeks of handicraft, art, music, outdoor meals and games, and other activities. About 37 students were enrolled this year's summer camp under Mrs. Vivian Dine, a teacher at Niedringhaus school.

In addition to the general welfare of retarded children, the agency is especially interested in the education of teachers for these children. This fall Miss Victoria Church, recipient of the agency's \$2000 special education scholarship, will begin her second year of special education studies at Illinois State Normal University, Normal.

The four-year scholarship has been established to assist in educating qualified Granite City high school graduates with the stipulation that the trainee must

teach for two years in the Granite City school system after graduation from college. The association's \$6000 budget for 1964 will come solely from United Fund donations. Expenditures include salaries for the coordinators and counselors of the summer day camp and the Saturday activity center; the special education scholarship; classroom and activity supplies; transportation expenses; and special parties for the children.

Special Education teachers for mentally-retarded children in the Granite City school system are Mrs. Evelyn Gavin, a high school instructor for the educable mentally handicapped; Mrs. Dine, who teaches the primary group at Niedringhaus school; Mrs. Mary Kessner and Mrs. Ben Henney, who teach intermediate classes at McKinley school; and Mrs. Myra Blades, junior high school level instructor at Central school. Harold Thomas is director of special education in the school district.

The association meets at St. John's United Church of Christ, 4th and Madison, on the fourth Monday of each month.

Officers are Mrs. Georgia C. Cagene, president; Mrs. Nelma Donald, vice-president; Miss Patricia Slubish, Legislation; Mrs. Gabrielle B. L. in e c; Personnel; Partney, Special; Pollution; Charles Moerlein, and Special Committee on Sick Leave Policy. Rutledge.

Credit Bureau Extends Hours To 7:30 Mondays The Granite City Credit Bureau, beginning tonight, will extend its hours to 7:30 p.m. on Mondays. Executive Director Alvin T. Barnes Jr. announced.

The bureau had previously been open to 7:30 p.m. on Fridays only. On Tuesdays, Wednesdays, Thursdays and Saturdays, the hours will remain 9 a.m. to 5 p.m.

Pending from a recent council session is a recommendation for a five-member committee to stop up air pollution controls in the city. The mayor was asked last week to name such a committee to include two or three aldermen and two or three citizens with a knowledge of sources and possible remedies.

The chairman also are expected to discuss progress on the Nameold road widening and resurfacing project, drainage needs, the newest developments on state-ordered sewage treatment plant and policies for repairs to private driveways on city property.

Sick Leave, Taxis, Buses Sick leave policies also may be discussed along with proposed fare changes for taxis and a bus.

It is expected the chairman may discuss a proposal for lease-purchase of major items of equipment for the street department. Bids are being sought for sweeper and high lift, and the department also needs a new road grader.
